# The Third Well Logging Symposium of Japan

Following the successful symposium of last year, we plan to hold "The Third Well Logging Symposium of Japan" in same season, and at same venue. The symposium has been improving year by year. From the second symposium, we started to broaden the call for papers to cover overseas, and in the third symposium the **Technology Research Center of Japan National Oil Corporation (JNOC-TRC)** will join us as the co-sponsor of the event.

The symposium will be held at **JNOC-TRC, Chiba on September 24-25, 1997**. All persons involved with well logging, formation evaluation and borehole geophysics are invited to present their activities and exchange information.

**Abstract is due no later than May 31, 1997**. Please refer to the attached "Call for Abstracts" for detail information. It can also be seen at the SPWLA Web site. Your contribution is expected. Let's submit Abstracts!

## Best Paper of The Second Symposium

Based on the results of the ballot conducted at the Symposium and as confirmed by the executive committee, "Best Paper" of the Second Well Logging Symposium of Japan (Sept. 26-27, 1996), was chosen by the 1996-1997 Executive Committee.

The Best Paper is ;

### Paper Z

**Three-Dimensional Reflector Locations by a Directional Borehole Radar Using a Cylindrical Conformal Array Antenna**  
by **Satoshi Ebihara, Motoyuki Sato and Hiroaki Niitsuma (Tohoku University)**

As you know, of the 26 papers presented at the symposium, only one is chosen for this distinction. This recognition by their peers is a singular honor and accomplishment of which the authors can take great pride.

Congratulation to the authors!

The Best Paper Award will be presented at the next symposium in September 24-25, 1997.
