

## Announcement from the Secretary

With reference to the By-laws of the Japan Chapter of the Society of Professional Well Log Analysts, Article II Term of Office, a new board committee for 2002-2004 was elected on September 27<sup>th</sup>, 2002. At the General Meeting, there were the election of the Board Members, a greeting from new president, Mr. N. Arihara, greetings from resigned and new board members, several reports on past activities, and Presentation of Distinguished Service Award to Past-President, S. Tono. Please refer *Greeting from New President* and a list of New Board Members for 2002-2004 in the below.

Moreover, *Invitation to 41<sup>st</sup> Chapter Meeting* will be found at the end.

## Greeting from New President

Dear the members,

It is my great pleasure to serve SPWLA, Japan Chapter, as the president for the next two years.

Owing to dedication and services of the members, our Chapter has made much accomplishment since we started in 1994. The greatest achievement was that the Chapter hosted the 43rd Annual Society Symposium in June this year. Successful planning and management of the conference and exhibition were acknowledged by appreciation and gratification expressed by the board members of the Society and participants at the symposium. On behalf of the Chapter members, I would also like to extend our appreciation to the past president Mr. Tono and the committee members for the Symposium for their contributions and efforts.

We can be proud of ourselves for successfully holding the Well Logging Symposium every year since 1994. It has been proved that the Symposium provides valuable opportunities for international professionals to exchange new technical developments. The practice of conveying papers in English is outstanding and unique among the similar local meetings.

I would like to ask all the members to continue to support the Chapter, to positively participate in Chapter's activities, and to take the initiative whenever necessary. Let's continue what we have been doing, and then let more people be involved in what we will accomplish. As we all agree, the range of uncertainty in underground is wide enough for us to work hard together.

Thank you.

Norio Arihara

# ELECTION OF THE BOARD MEMBERS

## BOARD MEMBERS FOR 2002-2004

President	Arihara Norio
First Vice President	Fumio Okitsu
Vice President, Technology	Makoto Miyairi
Vice President, Membership	Masashi Takayama
