

The 28th Formation Evaluation Symposium of Japan, 2023

JOGMEC-TRC , 13th – 14th September 2023

9:00- Japan Standard Time (GMT+9:00) Each Day

Special Session: CCS/CCUS

Sponsored by Japan Formation Evaluation Society (JFES) – A Chapter of SPWLA
Cosponsored by Japan Oil, Gas and Metals National Corporation (JOGMEC)

<https://www.spwla-jfes.org/>
info@spwla-jfes.org

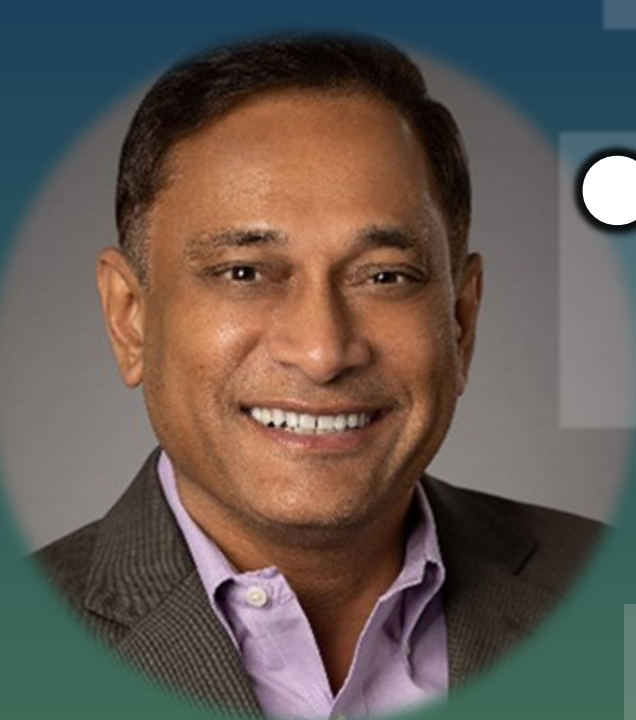

Invited Talks : **CCS/CCUS**

- 
- **Tetsuo Shimamoto (INPEX Corporation)**,
CCS project and research activities of INPEX and JAPT.

- 
- **Chiara Marieni (Carbfix)**,
*Turning CO₂ into stone:
Carbon mineralization technology and global potential*

- 
- **Kaibin Qiu (SLB)**,
*Worldwide Perspective of CCS/CCUS Site Characterization:
The Best Practices and Lessons Learned*

- 
- **Kozo Sato (The University of Tokyo)**,
Tidal Signal Analysis to Monitor Carbon Dioxide Migration

- 
- **Ram Seetharam (Univ. of Houston)**,
*Potential for CCS in the US
– A Project Manager's Perspective*

- 
- **Takahiro Nakajima (RITE)**,
*Predicting and monitoring the long-term behavior of CO₂
injected in a deep saline aquifer: A case study at the Nagaoka site, Japan*

- 
- **Philip S. Ringrose (Norwegian University)**,
*Insights from large-scale CO₂ storage injection projects
offshore Norway*

- 
- **Mark Zoback (Stanford University)**,
*Geomechanical Challenges
Associated with Massive Storage of CO₂*

- 
- **Jennifer Market (SPWLA President. Independent consultant)**,
*Keynote: The emerging role of petrophysics
in Carbon Capture and Underground Storage*
